

Democratized Social Trading Platform

The best way to start your cyptocurrency investment journey with a revolutionary incentive structure

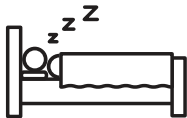

Feature

Carboneum (C8)

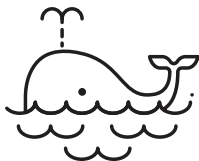

Trade like a pro

It is defined as a service which enables any users to take a role of follower, giving the green light to them to duplicate the transactions of a leading trader. The greatest achievement social trading brought to this world is allowing new investors to simply take a shortcut and deem the need to educate themselves about financial product unnecessary.

Sleep like you never before

A stop-loss order is placed to sell and buy your order when it reaches a certain price. Stop-loss orders are designed to limit an investor's loss on a position in a cryptocurrency. Our "Safety Belt" Feature will enable you to setup automatic safety for all your trades. All the risk is now manageable. This is especially convenient when you could not monitor your position for a longer period of time. Make you sleep without worry.

Watch the true Whale

Whale Watcher feature gives you insight into the actions of the large investment management of leader portfolio that manage millions of dollars worth of assets - the true "whales" of the investment world. By following these leaders, followers can get some good ideas on what to buy or sell according to our core value "Investing Made Simple"

Carboneum is building the open infrastructure for investment knowledge sharing with revolutionary incentive model. Brought to you by **StockRadars**, leading stock analytics and trading platform across iOS, Android, Web and Chatbot with 680,000 app downloads, double digits local and regional brokerage partners and 76 versions updated since launched. Above all, StockRadars is the only exclusive partnership of LINE Thailand, the provider of a market-leading chat application, in developing a service called LINE FINAVCE and together they have accumulated a large and still-growing user base of 4.8 million people. Our core belief is investment can be humanized, **Investing Made Simple**.
